September 2022

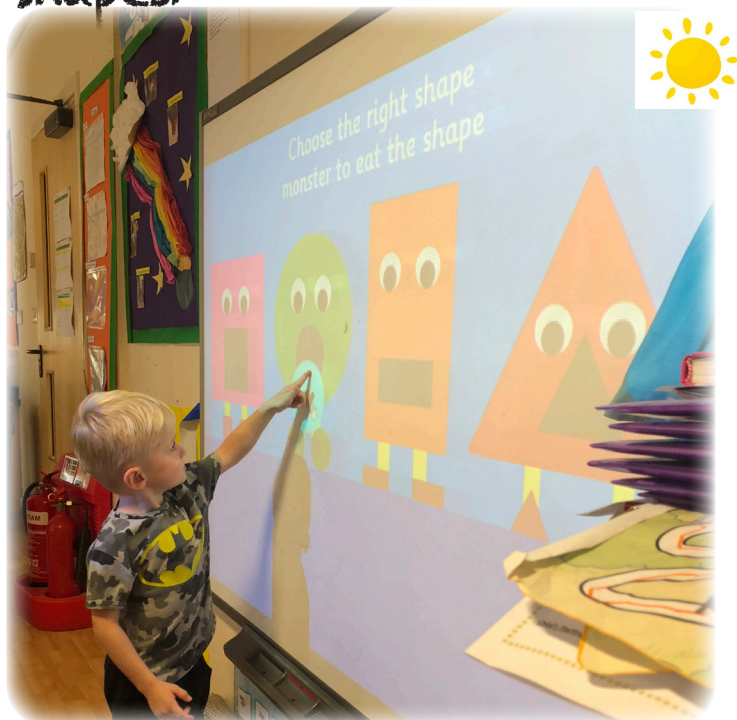

Welcome!

Dear Families,
Welcome to our Autumn term newsletter, and a big hello to the new children and families who have joined us this term. We also want to fondly welcome back all our existing children at the nursery as we look ahead to planning many fun experiences, activities and events. The autumn season brings with it many changes in our environment, and we will be taking the opportunity for all our children to enjoy all the changes that are happening around them. Please continue to follow all the information on our website and like and share our Facebook and Instagram page.

Facebook/Instagram: Little Marvels Nursery Services. If you have any queries, feedback or suggestions please speak with the Nursery Manager and we hope you have a lovely term.

Debbie Smith-Director of Little Marvels Nursery Services

Shapes!

Pre-school have been working on their shape recognition for the majority of the month, this allows them to learn the different shapes while learning colours at the same times, this gives the children an opportunity to work together and work in groups which helps them develop team work and communication skills. Working with shapes also helps the children to learn further skills which will come in handy as they move up in school, subjects like mathematics and science all come into play when working with shapes. It's an early step in learning numbers and shapes.

Sensory Floral Play!

The toddlers have been getting creative and making their own playdough. The children decided that they wanted the playdough out this week but there wasn't any! Dre'Mar said 'Let's make some!'. The children gathered their ingredients with some adult support and made their very own playdough by mixing, pouring and combining the ingredients. This also helps them to pick up on different skills as they are able to make their own choices which is great for independent learning.

Outdoor Play!

Many of the children love playing outside with their groups of friends or on their own, they love the playground and enjoy going down the slide at every chance they get. It's especially good for children to play outside because it helps them work on their communication skills with each other and with the staff on duty, playing outside also gives the kids a new environment.

Wet play!!

The toddlers really enjoy playing outside also as it gives them a sense of exploring the place, the kids love to play outside and explore what nature has to offer them outside the classroom. Playing outside also allows the kids to advance their motor skills a lot more, it helps them further their knowledge on what's outside and helps them to improve their balance and coordination.

Paint Play!

Many of the children love playing outside with their groups of friends or on their own, they love the playground and enjoy going down the slide at every chance they get. It's especially good for children to play outside because it helps them work on their communication skills with each other and with the staff on duty, playing outside also gives the kids a new environment.

Labelling Personal Items

Can all parents / guardians and carers please ensure that all personal items are labelled with your child's name. We have lots of children in and out every day and do not want to mix their belongings up.

Nursery Information

Can all parents / guardians and carers please ensure your child has a water bottle and appropriate clothing on warmer days, i.e. sun hat. Sun cream can be applied at the setting if provided.
